Phil Trelford: High performance data structures

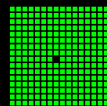

2019-12-13

Background

- A former fellow CS student, Joakim Ahnfelt-Rønne, and I founded the Meetup Group in **2013-09-10**, +6 years ago
 - We wanted to showcase how functional programming languages also could (and should) be used in industry
 - We aimed for free talks, money shouldn't keep people away
 - We also didn't want to be known as a Meetup Group that attract people by giving free food or beverages. We wanted to provide quality talks instead
- Note:** After events, we go to the nearest bar and have a beer or two (many)

Oskar Wickström: Property-based testing ugly parts

2019-12-13

Thanks to everybody who made/makes this possible

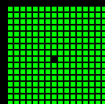

- Special thanks

- To **Don Syme**, designer of F#, who gave a talk when the group was starting. He put us on the map
- To **Joakim Ahnfelt-Rønne** because he is able to make high quality last minute talks when we can't get speakers for an event
- To **Prosa** because now we can use all our resources to look for speakers instead of looking for venues
- To all the other hosts : **Microsoft, Delegate A/S, ITU, SimCorp, SkillsHouse, DTU, Trifork/GOTO Nights, KU, Siteimprove, Jyske Bank, Unity** and **ISSUU**

- And last but not least, to all of our many speakers:

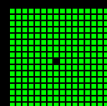

- Jesper Osgaards, **Tomas Petricek** (x2), **Torben Rahbek Koch** (x2), **David Christiansen** (x2), **Phillip Trelford** (x4), Don Syme, **Michael Werk Ravnsmed** (x2), Michael R. Hansen, Hans Rischel, Jesper Louis Andersen, **Claes Worm** (x2), Oscar Toro, **Paul Lam** (x2), Kristian Schmidt, **Ahmad Salim Al-Sibahi** (x2), Alessandro Bruni, Troels Henriksen, Jannick Johnsen, Ulrik Rasmussen, Evelina Gabasova, **Mathias Brandewinder** (x2), Philip Nilsson, Rasmus Lerchedahl Petersen, Mark Seemann, “Joe”, Christian Hvid, Andreas Garnæs, Johan Brinch, **Lorenzo López** (x2), Rune Ibsen, Frederik Hanghøj Iversen, Brian Hjøllund, Oskar Wickström, **Simon Marlow** (x2), Jérémie Dimino, Martin Clausen and Sune Debel
